*Rise Training Program - Rishabh Software*  
07/2023 – 12/2023 | Vadodara, India

## Education

**B.tech,** *Parul University*  
11/2020 – 04/2023 | Vadodara, India  
7.75 CGPA

**Diploma,** *Sigma institute of engineering, GTU*  
08/2016 – 09/2020 | Vadodara, India  
8.79 CGPA

**10th SSC,** *The new era high school*  
06/2014 – 03/2015 | Godhra, India  
50.50 Percentage

## Skills

React JS | Redux | Node JS | MongoDB

MySQL | HTML | CSS | JavaScript

Basic Java

**Tools** (*Visual Studio Code, Git, Github, Mongo Compass, Mongo Shell, MySQL Workbench, Postman API*)

## Certificates

**AWS Cloud Quest: Cloud Practitioner** 

**JavaScript Algorithms and Data Structures**   
*freeCodeCamp.org*

## Projects

### Meal Booking System

I developed the Employee Meal Booking System using MERN stack, featuring secure login, user registration, and a visual calendar for efficient oversight. The system optimizes administrative processes with advanced filtering and booking management. I contributed to both front-end and back-end development, ensuring a visually consistent design using Bootstrap.

### Petabrain - Online Learning Platform

Built a responsive online learning platform using React.js and Chakra UI. Users can purchase courses, access detailed information, and experience a seamless interface. Demonstrates hands-on skills in frontend development and React.js.

### Automatic Beach Cleaning Robot

My final year degree project involves a beach-cleaning robot designed to autonomously collect garbage in its path. Built on IoT technology, the robot operates with embedded C language code. Utilizing GSM and Arduino flame sensors, this project showcases my proficiency in both hardware and programming aspects.
